

EXPLORING THE NEXT LEVEL OF HEALING FOR HUMANITY

A new science is emerging that is changing out traditional understanding of health and healing. The latest scientific research is focusing on experiments that seek to quantify the effects of a newly accessible comprehensive spectrum of energy, light and information on human beings. This new healing spectrum is referred to by researchers today as *The Reconnective Healing Spectrum*.

Leading the way in this research is an international team of world-renowned scientists including such research luminaries as William Tiller, PhD, Gary Schwartz, PhD, and Konstantin Korotkov, PhD, with their studies of the *Reconnective Healing* frequencies, first discovered by Dr. Eric Pearl. The powerful and profound results of this research, anticipated to be published later this year, are attracting the attention of the best and brightest in the scientific community.

Dr. Tiller, Professor Emeritus, Stanford University, author of eight books, 250 scientific papers and co-star of the film *What The Bleep!?*, has been conducting research on how the physical properties of a room or space change as a result of energy healing frequencies entering that room.

He conducted his experiment on the *Reconnective Healing* frequencies for the first time at one of Eric Pearl's seminars held in Sedona, AZ in 2006, and found the results so extraordinary that he repeated his study into this phenomena three more times over the past couple of years, twice in Los Angeles, and once in Tucson, just to be certain that his extraordinary data was accurate. What Dr. Tiller has now shown has the medical research community quite baffled.

He explained that although the energy healing techniques we know of today utilize electromagnetic energy, *Reconnective Healing* brings us up "to a higher level... magnetoelectric energy," up to a "higher dimensional level."

In *Reconnective Healing*, "what is happening is that many kinds of energy and light are flowing through the healer and into the healee," not just what we were accessing before. In other words, the *Reconnective Healing* frequencies bring healing "beyond just what has been classically known as energy healing into a broader spectrum of energy, light and information," a spectrum that may not have been accessible by us prior to now.

Dr. Tiller's studies also demonstrate that this new continuum of healing frequencies impressively and conclusively increases what science calls "excess free thermodynamic energy," something released or produced, to a small degree, with energy healing.

Dr. Tiller explained that there was such an increase of excess free thermodynamic energy in the *Reconnective Healing* seminar room that, if this were simply the energy we find in “energy healing” or energy healing “techniques,” the temperature of the room would have had to have increased by *300 degrees centigrade (!)* to attain healing results even close to this. With *Reconnective Healing*, while the *actual* room temperature does not change, the amount of energy, light and information *charging* the room does, palpably and dramatically. In Dr. Tiller’s words,

“As we continued to monitor that space, we found *two days later the increase in this effective energy content was huge*. [If we ask] ‘What is the effective temperature increase for that normal space, how much must it go up to give the same excess energy content as was in Eric's workshop two days after he started?’ [The answer is] ‘*The effective temperature increase for a normal space would have been 300 degrees centigrade!*’ That is huge.”

These findings are highly significant. In offering insight into how people are changed after learning or interacting with *Reconnective Healing*, Dr. Tiller continues,

“This shift of energy is what allows normal human beings to enter a room and later to walk out with an ability to heal others and themselves, regardless of their background or education.”

In another research study, Dr. Gary Schwartz, along with Drs. Melinda Connor and Ann Baldwin from the Laboratory for Advances in Consciousness and Health at The University of Arizona, focused their research on the people who attend *Reconnective Healing* seminars.

Dr. Schwartz and his colleagues conducted their “baseline energy healing” studies both at Dr. Schwarz’s lab at the University of Arizona and at *Reconnective Healing* seminars around the world. These studies measured people’s abilities to work with, feel, transmit and receive light and other electromagnetic frequencies before and after they attended the seminar.

What they found was, in their own words, “dramatic.” Of the more than 100 people who participated in the study, *all* walked out with permanently expanded healing abilities following the *Reconnective Healing* seminar, whether they had never studied healing or even if they were masters, master teachers or grandmasters of the various energy healing techniques known today, old or new.

While Dr. Tiller has been measuring the impressive field effects that occur at these seminars and Dr. Schwartz has been focusing his research on those who attend those seminars, Dr. Korotkov has studied both field effects and effects on individual seminar attendees.

Using cutting-edge imaging methodologies and measurement devices, Dr. Korotkov’s research corroborates both Dr. Tiller and Dr. Schwartz’s findings. More specifically, he has measured and documented significant field effects, known as “coherence effects,”

that occur while the teaching is conducted at the seminar. These coherence effects catapult to yet higher levels whenever a new concept or exercise is introduced into the seminar, documented by dramatic leaps in both the intensity and size of the seminar room's field. He theorizes these coherence effects might be the conduit allowing attendees to acquire these new abilities and become master healers in just one short seminar weekend.

What impact are these and other studies on *Reconnective Healing* having on the scientific and medical community? Traditional science and medicine can no longer approach health and healing in the same manner as they previously have and remain in step with the rest of the world.

New scientific exploration by Drs. Tiller, Schwartz, Korotkov, Baldwin, Blair and others, as well as what is documented in Dr. Pearl's internationally bestselling book, *The Reconnection: Heal Others, Heal Yourself*, are validating the powerful effects that this new spectrum of energy, light and information can have on people.

This may not only be showing us a new level of healing, it may also be opening a doorway to the next level of human evolution, where instantaneous healing and regeneration are simple, everyday facts of life, simple, everyday miracles.
